WE OFFER A COMPLIMENTARY DESIGNER CONSULTATION

To give sellers honest and objective feedback on their home, a one-hour complimentary consultation with an expert independent designer and home stager is provided. The designer evaluates each home and provides sellers with ideas on how best to showcase their home. After the consultation, the designer is available to help implement the ideas presented.

With experience in interior design, installation, staging, construction supervision and landscaping, the expert designer has the ability to determine why a home is emotionally a hit or miss with buyers. By understanding “psychology” behind design and how to create the desired emotion of a space, the designer can determine how best to stage a home for a quick sale. The feedback allows sellers the ability to make important decisions that impact how their home is received by buyers.

WE BRING RESULTS

We have been the overwhelming leader in resale volume each year since the community opened in 2003. Perhaps our greatest strength is the ability to guide our clients through the negotiation process to achieve the best results. Unfortunately, overlooking this essential skill set while selecting an agent often costs sellers money, time and heartache. Our job is to marshal our relationships, skills and our negotiating advice to get you the most money that the market will allow for your property.

Year after year, the Toscana Onsite Sales Team generates the highest sales volume and number of transactions in Toscana. It is clear that the Toscana Onsite Sales Team is the leader and provides Toscana homeowners with the best opportunity to sell their property.

HEAR FROM OUR HAPPY SELLERS!

” Listing our home with the Toscana Onsite Sales Team was the only option we considered as we purchased our home from the team many years ago and had a wonderful experience. The team at Toscana knows the ins and outs of the homes and property so why would we not use them! The team goes way above and beyond of what is expected of an agent and office. The team really knows what's going on and got us cash offer, 14 day close and all completed in one day! Now that is professional service.
-John

” The Toscana Onsite Sales Team was very efficient in coordinating the showings of our existing home and the ongoing feedback from agents and buyers was appreciated. The communication was outstanding. The team has represented us on over six million dollars of transactions and they all were handled with the utmost professionalism and thoughtful consideration. We would not hesitate to recommend the Toscana Onsite Sales Team.
-Anita & Tim

” We decided to engage the Toscana Onsite Sales Team to sell our home for a number of reasons, they had a positive reputation with other homeowners, on-site availability and gave us a fair and accurate opinion of our home and its present value. We appreciated their candor and made necessary adjustments to prepare the home for sale. The team gave us plenty of time to prepare for showings, and timely feedback. Guided us through the inspection and escrow process.
